## PROFESSIONAL SUMMARY

To seek for a challenging role in a reputable organization to utilize my technical, database and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

## PROJECTS

**STUDENT REGISTRATION FORM** Dec 2023

- Designed a student registration form utilizing Java Spring Boot Framework, streamlining data collection and management

**Technology:** Java, Spring Boot

**AGE CALCULATOR** (<https://lnkd.in/gWF85hrr>) Apr 2024

- An age calculator quickly determines a person's age by subtracting their birthdate from the current date, adjusting for leap years and considering if their birthday has occurred yet this year.
- Users input their birthdate, and the calculator displays their age in years.

**Technology:** HTML,TailwindCSS,JavaScript

**WHATSAPP UI** (<https://lnkd.in/g-uQfj6V>) Mar 2024

- Developed a realistic WhatsApp user interface replica.
- Implemented key features and functionalities to mimic the popular messaging platform.
- Showcased proficiency in frontend development and design principles.

**Technology:** HTML,TailwindCSS

**SHOPPING NOTER** (<https://lnkd.in/g7qbZ9Cq>) Apr 2024

- "Shopping Noter" streamlines shopping lists. Users input items to buy and mark them green with a single tap when purchased.
- A double tap removes items, keeping the list tidy.
- With its simple interface, managing your shopping has never been easier.

**Technology:** HTML,TailwindCSS,JavaScript

**OBSTACLE AVOIDANCE CAR WITH LINE FOLLOWER** Mar 2023

- An obstacle avoidance car with line following capability navigates using sensors to avoid obstacles while following a predefined path marked by a line, making it suitable for automated navigation in controlled environments.

**Technology:** Embedded C
